## PROFESSIONAL SUMMARY

---

MCA graduate focused on **Cybersecurity and Security Operations**, with hands-on experience in **Linux administration, system and log monitoring, networking, Bash scripting, and technical troubleshooting**. Skilled in Linux CLI, TCP/IP, DNS, SSH, user and permission management, SQL, and security fundamentals, with practical exposure through technical labs and academic projects. Complemented by industry-oriented cybersecurity training and a strong interest in **SOC operations, threat detection, log analysis, incident investigation, and network security**. Seeking an entry-level **SOC Analyst / Cybersecurity Analyst** position to apply strong technical, analytical, and problem-solving skills to real-world security challenges.

## SKILLS

---

### TECHNICAL SKILLS

**Cybersecurity:** VAPT, Penetration Testing, Web Application Security, API Security, OWASP Top 10, Vulnerability Assessment, Vulnerability Validation, Security Testing, Remediation Tracking

**OS & Linux:** Linux, Kali Linux, Windows, Linux CLI, Permissions, User & Group Management, Process Management

**Networking:** TCP/IP, DNS, SSH, Ports & Protocols, Firewall Fundamentals, Network Troubleshooting

**Scripting:** Bash, Python

**Security Tools:** Burp Suite, Nmap, Nessus, OWASP ZAP, Nikto, Wireshark, Metasploit, Kali Linux, GitHub, VS Code

**Database:** SQL, MySQL, MongoDB

### SOFT SKILLS

Analytical Thinking, Problem-Solving, Attention to Detail, Communication, Teamwork, Time Management

## EXPERIENCE

---

### Cybersecurity Training & Practical Labs | 3 Months

- Practiced **network reconnaissance, vulnerability assessment, web security testing, traffic analysis, log monitoring, and Linux security** in controlled lab environments.
- Worked with **Nmap, Nessus, Burp Suite, OWASP ZAP, Metasploit, Netcat, Wireshark, hping3, Kali Linux, Bash, journalctl, systemctl, and Cron**.
- Analyzed **network traffic, open ports, services, system logs, and application behavior** to identify security issues and unusual activity.
- Performed hands-on practice in **vulnerability scanning, web application security testing, basic exploitation, network troubleshooting, and security analysis**.
- Developed practical skills in **SOC monitoring, reconnaissance, vulnerability assessment, incident investigation, and technical reporting**.

## PROJECTS

---

### Network Security Monitoring & Traffic Analysis Lab

**Nmap | Wireshark | hping3 | Kali Linux**

- Conducted authorized **network reconnaissance and service enumeration** using Nmap in an isolated lab.
- Captured and analyzed TCP/IP traffic with **Wireshark** to investigate network communication and connection patterns.
- Generated controlled test traffic with **hping3** to study packet behavior and recognize abnormal traffic patterns.
- Documented findings and practiced basic **SOC alert analysis, network investigation, and incident reporting**

### Linux System Administration & Security Lab

**Linux | Bash | Kali Linux | systemctl | journalctl | Cron**

- Managed **users, permissions, processes, and services** in Linux environments.
- Monitored **system logs and services** to troubleshoot operational and security-related issues.
- Automated routine administration tasks using **Bash and Cron**.

## Myntra E-Commerce Clone | MERN Stack

React.js | Node.js | Express.js | MongoDB | Mongoose | JWT | REST APIs

Live Demo: <https://visionary-cocada-21808e.netlify.app/>

- Developed a full-stack fashion e-commerce application inspired by Myntra using the **MERN stack**, integrating a responsive React frontend with a Node.js/Express backend and MongoDB database.
- Implemented **user authentication and authorization using JWT**, along with user account management and protected application functionality.
- Built product browsing, category navigation, product details, **wishlist, shopping cart, address management, and order/checkout workflows**.
- Designed and integrated RESTful APIs for authentication, users, products, categories, cart, wishlist, orders, addresses, and payments.
- Used **MongoDB Atlas and Mongoose** for database management and structured application data.
- Implemented reusable React components, navigation, context-based state management, and responsive UI for a smooth e-commerce experience.

## EDUCATION

|                                                                                                                                 |                  |
|---------------------------------------------------------------------------------------------------------------------------------|------------------|
| <b>Master of Computer Applications (MCA)</b><br>Dr. Harisingh Gour Central University, Sagar, Madhya Pradesh   <b>8.67 CGPA</b> | <b>2024–2026</b> |
| <b>Bachelor of Science in Computer Science</b><br>Utkal University, Bhubaneswar, Odisha   <b>81.72%   8.4 CGPA</b>              | <b>2021–2024</b> |
| <b>Higher Secondary Education (+2 Science)</b><br>Fakir Mohan Higher Secondary School, Balasore, Odisha   <b>85%</b>            | <b>2019–2021</b> |
| <b>Matriculation (Class 10)</b><br>Saraswati Sishu Vidya Mandir, Jajpur, Odisha   <b>84.50%</b>                                 | <b>2019</b>      |

## CERTIFICATIONS & TRAINING

- **Full Stack Web Development Internship** — ElevanceSkills | **Dec 2025 – Feb 2026**
- **Cybersecurity Fundamentals** — IBM SkillsBuild
- **Introduction to Cybersecurity** — Cisco Networking Academy
- **Cybersecurity Analyst Job Simulation** — Deloitte, Forge
- **Data Analytics Job Simulation** — Tata, Forge
- **UNXT Soft Skill Foundation – Infosys Foundation Development Program** — SGBS Unnati | 165 Hours
- **Power BI Certification** — Office Master
- **Front-End Development Certification** — Simplilearn

## ACHIEVEMENTS

- **Selected for IDEATHON – Smart India Hackathon 2025 (Internal Round)**; collaborated with a cross-functional team to develop and present the “Discover Delight” project.
- **Completed a Full Stack Web Development Internship** at ElevanceSkills, gaining hands-on experience in **application development, troubleshooting, testing, and technical problem-solving**.
- Completed **industry-oriented cybersecurity training and job simulations**, strengthening practical knowledge in **security monitoring, network security, vulnerability assessment, and cybersecurity fundamentals**.

## LANGUAGES

**English:** Proficient | **Hindi:** Fluent | **Odia:** Native
